Harshit Jain

Software Engineer
New Delhi, India
jainharshit2132005@gmail.com | *LinkedIn*| *GitHub*| LeetCode

Professional Summary

Computer Science student experienced in building production-grade systems. **4× Hackathon winner** with **1700+ LeetCode rating (1789)**, focused on scalable architectures, reliability, and user-centric design.

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C, C++, HTML, CSS, SQL
Frontend Frameworks/Libraries: React, Next.js, shadcn/ui, Tailwind CSS
Backend Frameworks: Node.js, Express.js, FastAPI
Cloud & DevOps: AWS, Docker, Kubernetes, GitHub Actions, Nginx
Databases & ORMs: PostgreSQL, MongoDB, MySQL, Prisma, Mongoose
Other Technologies: REST APIs, WebSockets, CI/CD, Git, DSA, OOP, Generative AI (Prompt Engineering).
Methodologies & Other Skills: Agile Scrum, Remote Collaboration, Effective Communication, Problem Solving.

Training And Internships

Cloud & DevOps Intern | *CodeSquadz*, Noida, UP, India (On-site) — Jun 2025 – Jul 2025

- Completed a **2-month on-site Cloud & DevOps internship program**, working with **AWS (EC2, S3, Lambda, DynamoDB, RDS, VPC, IAM)** and **Docker**, and built CI/CD pipelines and deployment workflows that reduced deployment steps by **~40%**, gaining hands-on experience with cloud infrastructure and DevOps automation.

Projects

KarigarMart | *React.js, MongoDB, Razorpay, Cloudinary* — Aug 2025 – Dec 2025

- Built a full-stack multi-vendor e-commerce platform with **10+ production workflows** (multi-cart, wishlists, Razorpay payments, Google OAuth, user profiles, artisan store management), improving page responsiveness by **~40%** via optimized APIs and frontend caching, while integrating Cloudinary-based media pipelines (**100% overwrite collision prevention**) and an AI marketing video system (Gemini 2.5 Flash, Veo, ElevenLabs) that reduced generation time by **~30%** and delivered videos in **< 60 seconds** with real-time SSE updates.

VisoRead | *(Winner ×2 – IIITD Product-a-Thon)* | *React Native, ESP32, MLKit OCR* — Oct 2025 – Nov 2025

- Built a hybrid online/offline AI assistive vision system achieving **80%+ offline OCR accuracy**, **2–3×** text consistency improvement, and **~60%** latency reduction via parallel Gemini Vision + ElevenLabs pipelines, supported by a **300+ rule** NLP engine and **10,000+ word** dictionary. Source code not publicly available due to **patent in process**.

Forensiq-Engine | *(1st in assigned problem statement)* | *Graph Algorithms, Node.js, React, D3.js* — 24-Hour Build | Feb 2026

- Built a graph-based financial fraud detection engine detecting 3 laundering patterns (circular routing, smurfing clusters, shell chains) using network analysis and deterministic 0–100 risk scoring.

Achievements

- **2× 1st-place winner** at **IIIT-Delhi IndustrySolve (Idea-Thon & Product-a-Thon 2025),** selected from **250+** teams, for building an AI-powered assistive reading solution and delivering a fully functional prototype **(₹40,000 award).** *(Proof)*
- **Runner up (2nd Position) – HACKDATA' 26,** a 24-hour hackathon organized by Shiv Nagar Univeristy **(₹60,000 award).** *(Proof)*
- **2nd Runner Up (3rd Place)** – **RIFT '26**, a 24-hour multi-city National Hackathon by Physics Wallah **(₹10,000 award)**. *(Proof)*
- **Top 6 Finalist** among nationwide teams at **Sprint4Good AI Hackathon, IIT Delhi, 2026.**
- **Solved 800+ Data Structures & Algorithms problems** across CodeChef, LeetCode, and Codeforces.
- Rated **1547** on **CodeChef** and **1700+ LeetCode contest rating (1789)** with a **365 day problem-solving streak badge (2025)**.
- Achieved **Global Rank 627** in CodeChef **Starters 221**.

Education

Guru Gobind Singh Indraprastha University — New Delhi, India
Bachelor of Technology in Computer Science – CGPA (8.93) — *Aug 2023 – Aug 2027*

Certifications

Oracle Cloud Infrastructure Certified Generative AI Professional — *Issued:* Oct 2025 | *Expires:* Oct 2027
